---

## PROFESSIONAL SUMMARY

Motivated Software Engineering student with a strong focus on Artificial Intelligence and Machine Learning. Skilled in building end-to-end solutions — from data preprocessing and model training with Python, TensorFlow and scikit-learn, to deploying models through Flask and Streamlit web applications. Solid additional foundation in full-stack web development using React, Node.js, PHP, MySQL and MongoDB, which allows AI models to be integrated into real, usable products. Fast learner with hands-on project experience, strong problem-solving ability, and a keen interest in computer vision and deep learning. Seeking an internship or entry-level position as an AI / Machine Learning Engineer where I can contribute to practical, data-driven solutions while continuing to grow professionally.

---

## EDUCATION

### BS Software Engineering

2023 – Present

*Sarhad University of Science and Information Technology — Peshawar, Pakistan*

- Relevant coursework: Programming Fundamentals, Object-Oriented Programming, Data Structures & Algorithms, Database Systems, Artificial Intelligence, Machine Learning, Web Engineering and Software Design.
- Focus area: Artificial Intelligence, Machine Learning and Computer Vision.

### F.Sc. Pre-Engineering

2020 – 2022

*Fazaia Inter College — Peshawar, Pakistan*

- Core subjects: Mathematics, Physics and Chemistry — built a strong analytical and quantitative foundation.

### Matriculation (Science)

2018 – 2020

*Edwardes College School (Wing 1) — Peshawar, Pakistan*

- Science group with Mathematics, Physics, Chemistry and Biology.

---

## CERTIFICATIONS & COURSES

### Social Media Marketing

2025

- Completed a certified course covering social media strategy, content planning, audience growth and digital marketing fundamentals.

---

## TECHNICAL SKILLS

**Programming Languages:** Python, JavaScript, PHP, SQL

**AI / Machine Learning:** TensorFlow, Keras, Scikit-learn, OpenCV, Deep Learning, Neural Networks, CNNs, Computer Vision, Model Training & Evaluation

**Data Analysis:** Pandas, NumPy, Matplotlib, Data Cleaning, Feature Engineering, Exploratory Data Analysis (EDA)

**Frontend Development:** React.js, JavaScript (ES6+), HTML5, CSS3, Responsive Design

**Backend Development:** Node.js, Express.js, Flask, PHP, REST APIs

**Databases:** MySQL, MongoDB

**Tools & Platforms:** Git, GitHub, Streamlit, Jupyter Notebook, Google Colab, VS Code

---

## PROJECTS

### AI Quiz & Question Generator

*Python, Streamlit, Google Gemini API*

- Built a Gemini-powered AI learning platform that generates customizable quizzes and questions on any topic with intelligent, context-aware explanations.
- Implemented performance tracking and the ability to save and export study content in CSV/TXT formats using JSON for structured data handling.
- Deployed as a live web app with Streamlit. GitHub: [github.com/kingkhanawais40-glitch/ai-quiz-generator](https://github.com/kingkhanawais40-glitch/ai-quiz-generator) • Live Demo: [ai-quiz-generator-awais.streamlit.app](https://ai-quiz-generator-awais.streamlit.app)

## Skin Disease Detection (AI/Deep Learning)

*Python, TensorFlow, Keras, Flask*

- Developed an AI-powered skin lesion classification system using a fine-tuned EfficientNetB0 convolutional neural network to predict one of seven skin disease classes.
- Built a Flask web interface where users upload an image and receive predictions along with confidence scores and class probabilities.
- Handled image preprocessing and model evaluation using NumPy and Scikit-learn. GitHub: [github.com/kingkhanawais40-glitch/skin-disease-detection-ai](https://github.com/kingkhanawais40-glitch/skin-disease-detection-ai)

## AI Student Performance Predictor

*Python, Pandas, Scikit-learn, Streamlit*

- Built a machine learning model that predicts student academic performance based on study habits, attendance, and previous academic results.
- Performed data preprocessing, feature engineering, model training and evaluation to generate data-driven insights into student outcomes.
- Visualized trends and prediction results using Matplotlib and Seaborn, and deployed an interactive interface with Streamlit.

## Hotel Management System

*Python, Django, HTML5, CSS3*

- Developed a full-stack hotel management web application covering room booking, guest records and admin management using the Django framework.
- Designed the relational database schema and built a clean, responsive interface with HTML5 and CSS3.

## Student Attendance Management System

*React, Node.js, Express*

- Built a full-stack attendance tracking system with a React frontend and a Node.js/Express REST API backend.
- Implemented features for marking, viewing and managing student attendance records with a component-based, maintainable architecture.

## Weather Dashboard

*Python, Streamlit, OpenWeatherMap API*

- Created an interactive weather dashboard that fetches and displays real-time weather data using the OpenWeatherMap API.
- Built a clean, user-friendly interface with Streamlit for quick, at-a-glance weather insights.

## Smart Offline Chatbot

*HTML5, CSS3, JavaScript*

- Developed a browser-based chatbot capable of responding to user queries without requiring an internet connection.
- Implemented the conversational logic and UI entirely with vanilla HTML5, CSS3 and JavaScript.

## PROFESSIONAL SKILLS

---

- **Problem Solving** — Analytical thinking and structured problem solving
- **Communication** — Comfortable explaining technical concepts clearly to both technical and non-technical audiences
- **Teamwork** — Experience collaborating on shared codebases using Git and GitHub
- **Self-Learning** — Consistently exploring new AI frameworks, research papers and online courses
- **Attention to Detail** — Careful with data quality, model evaluation and clean, documented code
- **Time Management** — Able to manage academic workload alongside independent project development

## LANGUAGES

---

**Urdu:** Native / Fluent

**English:** Professional working proficiency (reading, writing and speaking)

**Pashto:** Basic / Conversational

## PERSONAL INFORMATION

---

**Full Name:** Muhammad Awais

**Nationality:** Pakistani

**Religion:** Islam

**Location:** Peshawar, Khyber Pakhtunkhwa, Pakistan

**Availability:** Open to internships, part-time and entry-level opportunities (on-site / remote)
