SUMMARY

Motivated Software Engineering student with a strong interest in Artificial Intelligence, Web Development, and modern software solutions. Experienced in building AI-based applications, responsive web systems, and programming projects using modern technologies. Passionate about creating scalable, user-friendly, and intelligent digital products.

EDUCATION

Sarhad University of Science & Information Technology

BS Software Engineering

2023–Present

Fazaia Inter College Shaheen Campus

FSc Pre-Engineering

2020–2022

Edwards College School Wing 1

Matric (Science)

2018–2020

PROJECTS

Hotel Management System | React | PHP | MySQL

- Developed a hotel management application with booking and administrative features.
- Designed responsive user interfaces and database management functionality.

Personal Finance Tracker | C++

- Created a finance tracking application using C++.
- Implemented data handling and reporting features.

AI Chatbot | React | API Integration

- Built an AI chatbot integrated with web applications.
- Focused on interactive user experience and automation.

TECHNICAL SKILLS

Programming Languages: C++, Python, JavaScript, SQL

Frontend Development: HTML, CSS, React.js

Backend Development: PHP, Flask, MySQL

Artificial Intelligence & Machine Learning: Machine Learning, Computer Vision, OpenCV, YOLO Object Detection

Tools & Technologies: Git & GitHub, VS Code, XAMPP, MySQL Database

INTERESTS

Artificial Intelligence Full Stack Development Computer Vision Software Engineering Problem Solving
